Name: Yanina Genao

Date: 3/12/2019 1:11:39 PM

Address: 150 Beasley rd

Neighborhood, Street, or HOA:

How this impacts me:

These additional 300-500 residents will overcrowd our schools! We moved from Orlando to Oviedo for this very reason

Indicated attending 4/9 1:30pm and / or indicated attending continued 4/23 6pm meet Yes

I am opposed to this planned development: Yes

I'm a resident of Seminole County: Yes

Petition # 2

Name: Trish

Date: 3/12/2019 1:14:10 PM

Address: 971 Lagoon Dr

Neighborhood, Street, or HOA: Stillwater

How this impacts me:

College students will rent the low rent apartments and impact the area with no care or concern for the community. Additionally reckless driving is common among people in their first years of college and those at a young driving age per insurance and statistics. This greatly impacts the community as whole.

Indicated attending 4/9 1:30pm and / or indicated attending continued 4/23 6pm meet No

Name: JoDee Buis

Date: 3/12/2019 8:19:25 PM

Address: 2354 Riverdale Ct, Oviedo, FL 32765

Neighborhood, Street, or HOA:

How this impacts me:

Traffic on the stretch of 434 between Mccullough and Chapman is already very dangerous. The speed limit is 50mph and because there are few stoplights in this section of road, cars build up a lot of speed. During peak traffic times it is near impossible to safely merge into traffic. At Lake Hayes specifically, people attempt to make a left hand turn onto 434, while cars coming from the very large development up the street are trying to make u-turns at the same intersection. Adding more traffic from an apartment complex will only worsen an already deadly intersection.

Address: 177 Lake Dr

Neighborhood, Street, or HOA: Lake Dr

How this impacts me:

It's low income housing and I don't want those kinds of people in my area. As prejudice as it might sound, I've had my fair share of dealing with these kinds of people and due to my experiences with these kinds of people, I have the right to not feel safe around them. Because of these things. I certainly don't want these kinds of people like that as a regular part of my life. Also this development is right by my friends neighborhood and if a development is built there, there's gonna be another one in a few years time in my neighborhood because, it's right by my neighborhood as well. Also it affects the real-estate if everywhere around it, this cheap housing will lower the value of my property and all my friends properties.

As a resident of Beasley Rd, I'm horrified with the prospect of living on the same street as an high-density low income housing complex. While I know the benefits of such housing, this lot is not zoned for it, and it shouldn't be. This is a higher- income neighborhood. Many 10+ year studies have shown introducing such housing to higher income neighborhoods permanently decreases surrounding home values, and even encourages segregation among the surrounding community.

Petition # 146

Name: Victoria Johnston

Date: 3/12/2019 11:43:04 PM

Address: 221 Burnsed Pl

Neighborhood, Street, or HOA: Canterbury Cove/Sentry Management HOA

How this impacts me:

High density housing in a low density residential area will increase the crime rate; The residents of the complex will be able to see into my backyard and see my house; The increase in traffic in the area will be dangerous, potentially leading to more accidents of a deadly nature; The increased density of residents in a relatively small area will increase noise pollution; The change to high density housing in an area of low density housing will decrease property values in adjacent properties (Canterbury Cove and properties in the Beasley Road neighborhood especially); Changing this building site to high density housing in this area will set a bad precedent for other small properties for sale and development to do the same, thereby decreasing property values in this area further; Areas set aside by our HOA for resident recreational use may be used by residents of the complex--not understanding that this is private property; Heavy excavation and building in this area may impact the "drainage" area immediately behind the build site. This "drainage" area is known to be home to at least two families of Sandhill Cranes that have hatchlings here each spring, it is used by multiple forms of wildlife as a watering hole (deer, etc.), many unusual birds have been seen in and around the pond. I am concerned that this area is indeed being used by wildlife that is important to our ecology and increasing the population by so many--and building by so much--will shock the wildlife away from the area.

I take 434 to work and the huge increase in traffic is not acceptable. This development will also lower my property value as I live 3/4 of a mile from the site. Not to mention this will be a huge eye sore to the area. I am also a small business owner in Oviedo approximately 1/4 of a mile from this planned development and low income housing always brings a host of other issues including crime! The impact on our already over packed schools, not to mention the added stress to our understaffed and under paid teachers and administrators. No way!! I live off of Lake Hayes Rd. The traffic from this proposed project will be funneled onto Lake Hayes Rd.- which is the only exit. The back-up will impact all residents who live off of Lake Hayes & Beasley Rd. There will be a dramatic increase in the probability of accidents resulting in injuries and death due to the increased traffic flow from Lake Hayes Rd. and Beasley Rd. onto 434 /Alafaya Trail. Alafaya Trail is four lanes with a speed limit of 50mph (most go 60mph+) and NO traffic signals exit at this time. This apartment complex is NOT consistent with surrounding properties/zoning and does NOT have the infrastructure in place to support it. STOP this project!

How this impacts me:

We come to Florida to stay with my daughter and are moving here permanently at the beginning of next year. We live right outside of Philadelphia, in the suburbs. Even though it's the suburbs, it is very crowded with traffic and noise. One of the things that impressed us was the quiet and family friendly atmosphere of the neighborhood that she lives in. I loved spending time outside on the back porch just looking over the pond and the woods. It was so restful here. I think adding so many people to such a small area will increase the noise level, the traffic level and the crime rate. I believe this because of where I live and how the City has encroached on the suburban areas. Already, the traffic here seems to be very bad, with people driving too fast and not watching the cross streets unless there is a light there. People drive down the side streets too fast too. It is dangerous for the kids. I also don't understand why the developer is putting up a chain link fence when most complexes have concrete or brick walls? I'm worried for my daughter that the value of her property will go down. I'm worried that crime will go up. I know there are no guarantees in life, but I am moving here for the peace and quiet that Oviedo offers. If I wanted to live near a bunch of apartments, I would have moved closer to Orlando. Thanks for listening.

The local zoned school for this would be Evan's the school is at capacity already. Traffic on alafaya is crazy. People in apts do not contribute to local tax for schools, buildings etc. This needs to stay single family so they can contribute and keep the density relatively low. This is a single family area. There has been plenty of condos, apts, and townhomes built in oviedo proper and unincorporated lately. We need to stop the over development

This will Lower my property value and cause issues in my neighborhood! Please don't say it wont, The developer and commissioners would not like this development next to their own homes. You are pushing the limits of changing the zoning! Just like smaller parking places, more units and not following your own buffering rules for this type of development. Please don't allow this to happen.

Neighborhood, Street, or HOA: Remington Park

How this impacts me:

It is not acceptable to destroy an existing, beautiful way of life based on single family homes and green space in beautiful Seminole county. The profits for one must not outweigh the lives of many! Not only will home/property value be negatively impacted, traffic to this Seminole county area is through Alafaya trail which is currently unbearable and will become a death trap especially during emergency conditions. This potential zoning change is a detrimental precedent for the future of this area and will negatively impact the financial future of this county.

Date: 3/16/2019 1:58:55 AM

Address: Canterbury cove

Neighborhood, Street, or HOA:

How this impacts me:

Every day I will open my front door and see the development. I am concerned about the huge loss in property value, the access to which the development will have to my neighborhood. It is not safe to have the egress on Alafaya - the added traffic will put stress on the lynx bus stop and the school bus stops on Burnsed and Alafaya. There is no sound, pollution mitigation for Canterbury Cove....the development goes up to the back yards of some of the homes. There is already a lower density two story rent controlled development on Chapman/Alafaya - why our small community for a higher density one? Did I mention loss in property value?

How this impacts me:

Increased crime and noise in my quiet community for one property value for another hi density apartment in a low density residential area donâ€™t understand why they couldnâ€™t build up somewhere over on 419 better area for them to build schools to handle the overcrowding of Oviedo adding buildings to older schools doesnâ€™t make sense whatâ€™s going to happen with our septic systems and our well water concerned about that Best part of Oviedo is the small hometown field of residential areas homegrown manners and well beings of our elderly letting them feel like they still live in a small town this area has a lot of older people in it I would hate to think that they are being pushed out having to go live with family members and nursing homes due to the overcrowding . These residents have been here for a very long time left and came back because Oviedo had something to offer . Next thing you know theyâ€™ll be wanting to put a hotel here which we are definitely opposed of! It would be nice to see a park there seems there are so many residents moving in Oviedo has less parks for kids especially on this side of town . If you donâ€™t want to be family friendly right . Definitely have enough restaurants gas stations and auto shops . We need some place for young people to go and do things and have fun at Park would be nice . A nice place for seniors to go and sit and enjoy the beauty that Oviedo has to offer and the birds , nice benches to sit. I do love my Oviedo !

Name: Liliana DAngeli Garcia

Date: 3/20/2019 11:24:24 PM

Address: 458 Haveloc Cove

Neighborhood, Street, or HOA: Remington Park HOA member

How this impacts me:

I don't like how many 3 or higher story apartment homes have been built in Oviedo making it more congested less of a nice family suburbia and turning it into a city like atmosphere with heavy traffic and raise property taxes to make up for overcrowding of schools and needs for more policing. I moved to Oviedo 25 years ago when it was quiet and peaceful, it has overgrown with overpopulation and construction growth. Not so beautiful anymore.

Indicated attending 4/9 1:30pm and / or indicated attending continued 4/23 6pm meet No

Name: DANA FREDEY

Date: 3/21/2019 11:16:39 AM

Address: 2765 SAWDUST CT

Neighborhood, Street, or HOA:

How this impacts me:

Adding a high density apartment complex will add too much traffic to an already highly congested area and I have lived here for almost 20 years and this is a low density housing area of single family homes and we do not need an apartment complex in this area. There are already several apartment complexes in Oviedo and along Alafaya Tr towards UCF. To bring more traffic and congestion would be very irresponsible.

Name: GeniceCason

Date: 3/26/2019 8:20:50 PM

Address: 1093 Clifton Springs Lane

Neighborhood, Street, or HOA:

How this impacts me:

Affordable housing has a proven history of depreciating homes and running down schools and I donâ€™t want the home we have worked our tails off for to go down in value because the state thinks people deserve to live in an area they themselves cannot afford. Why canâ€™t the state or developer put this housing in an area that is more comparable to their economics...there are plenty of other areas that could accommodate their needs that wonâ€™t be impacted by the devalue it brings! It would also be nice to have a meeting in the evening, which will allow the people who work to afford to live in this area, to attend!!!

Date: 3/31/2019 12:58:32 PM

Address: 1219 Turnbridge Pl

Neighborhood, Street, or HOA: Lukas Landinb

How this impacts me:

It is not fair to the rest of the low density neighborhoods in the surrounding areas. It adds a a lot of burden on our roads and schools. People living in the surrounding areas were having a certain quantity of life and rezoning this to high density will affect their quality of life. This is not fair to them. Rezonings like this only serve to help the developers reap maximum profits at the cost of the existing county residents. If developers are not willing to build according to the current zoning there is no need to change it. There is enough construction going around in this area. We can wait until it becomes feasible to get a suitable commercial or low density proposal. Note that I am not opposed to all rezoning. But this one is especially bad because it is surrounded by low density residents and will affect them negatively. We need to put ourselves in their shoes and support our citizens. Thank you.

Neighborhood, Street, or HOA: Live Oak

How this impacts me:

Iâ€™m a citizen of Oviedo, this zoning sprawl has to stop. We do not have the infrastructure to support all of these additional people, cars and everything that comes with it. As it stands, it takes over 30 minutes to go 8 miles during rush hour in this area, that I unfortunately have to travel on a daily basis. Stop this ridiculous growth and allow the citizens that live and work here decide whatâ€™s best for our city.

Address: 3591 Heirloom Rose PL

Neighborhood, Street, or HOA: The Sanctuary

How this impacts me:

Concerns include: and public safety, strain on public resources, most schools are already beyond capacity and those that are not have very few seats left per the school district records, loss of the flood plain and impact on existing low level homes, loss of green space, impact on the water table, and overdevelopment and congestion. This is another project that fails to address the need for senior or Veteran housing. The land could be better put to use in creating a cottage community of small homes that would serve the needs of long time residents of Oviedo and mark Oviedo as forward thinking with responsible development.

Name: Frank Borden

Date: 4/6/2019 11:04:50 PM

Address: 6343 Leonard Ave, Bensalem, PA 19020

Neighborhood, Street, or HOA: Burnsed Place, Canterbury Cove

How this impacts me:

My wife and I are moving to Burnsed Place to live with her daughter, due to our health. We live in the suburbs of Philadelphia right now. I've personally seen how this kind of change in zoning has made changes in what once was a quieter, friendlier, family focused area. It happened to us. The changes made to our "suburb" now swallowed us up. You can't tell where the City starts and ends up here. In my opinion, the zoning changes being made to this part of Oviedo will just make it look like another part of Orlando. In spite of what the school system says, they will have to bus children to other schools to make room for new students coming in, and that sort of disruption is never good for the kids. They end up spending longer on the buses, and less time for homework and family time. There will be less green areas and park like areas which is not good for the ecology and habitat of wildlife, and Florida is slowly losing a lot of that due to overdevelopment. The roads will be overcrowded and people will have more accidents due to speeding, anger, and just not watching where they are going. When you cram so many people into such a tight little space, there is going to be a rise in crime; even if it's just in that one spot. That puts a stress on the public services like police. We are overloaded with people up here. The traffic is horrible and it takes so long to get anywhere, you just about give up leaving your house at all. The noise is horrible. I don't even want to sit on the sun porch here because the noise from all the people and traffic is so bad. But at my stepdaughter's house it was so quiet and private. I have Parkinsons disease. I want to be able to sit on the back porch and not have kids and other people gawking at me through a chain-link fence. I want to be able to sleep without lights from a neighboring complex shining in my bedroom windows. This spot is already zoned for what it is zoned for. Leave it alone. I hope when we move in the next few months I get to enjoy the back porch for more than a few weeks. Please do the right thing. Don't make Oviedo into Orlando North.

I moved out of Carillon due to a previous zoning decision to allow UCF housing in Seminole county next to our neighborhood. This overrode what the land was originally zoned for. Despite much neighborhood finding to fight it our supposed elected officials voted against us. I built a new house several miles away to get away from the traffic congestion. I want the officials that weâ€™ voted for to protect us from this type of unrestricted development.

This zoning change will effect me by lowering the property value of my home. It will overburden our schools and increase student teacher ratios which will lower the school grades. It will also effect me by having more traffic on our already overburden roads. In addition, this apartment complex will overburden our police and fire/rescue. Please do not change the zoning of this or any other parcel of land. Please protect the residents of this town by not changing the zoning of this property. Evans Elementary Permanent Capacity 878 Current Enrollment 970 Jackson Heights Middle School Permanent Capacity 1359 Current Enrollment 1450 Denying this as not compatible based on inappropriate density and zoning transition and inappropriate intensity is LEGALLY DEFENSIBLE and judges reputedly rule in favor of Counties who stand up to this as DEFENSIBLE. 2014 property zoned agricultural / low density 2015 it was PUD for an assisted living facility but apartments were specifically denied; it fell through 2019 3 story high density apartments. Really; would NOT be approved NOW? What about housing for the elderly and retired? At least 10 fold increase in density and intensity with 300-400 people on 4.6 acres where surrounding homes density has 30 people Of 345 square miles in the county why this 4.6 acres where 10 of our lots could fill the site. Initial zoning meeting was not conspicuously placarded in advance and cries for continuance on 3/6 were ignored as county employee worked on behalf of developer to placard 6-7 days vs... 10-15 required!!! Developer says trying to help homeowners, not accurate I'm NOT opposed to development I'm NOT opposed to workforce housing Opposed to unrealistic and inappropriate zoning that shocks the consciousness As pressure and good questions come before commissioners pressure mounts on the coattails of the city of oviedo defeating a 60 acre over-development initiative then the county notify developer and its rumored developer will request a continuance and Commissioner Carey is reputed for being supportive of over development; but not in snow hill out by where another Commissioner owns property? Beasley was not conspicuously placarded with 10 days advanced notice and County helped developer to palcard after the fact. Raising both eyebrows and dropping jaws! Commissioners It is Legally Defensible for your to vote NO!

Date: 4/9/2019 12:46:52 AM

Address: 3840 Hammonds ferry ct, Oviedo

Neighborhood, Street, or HOA: The Sanctuary

How this impacts me:

Traffic through and around Oviedo has become incredibly frustrating and congested with all the residential and commercial development. Getting to and from my home to 417 to travel to Orlando for work every day takes longer than my travel from 417 to Orlando. Our beautiful bedroom community is becoming over-populated and over-commercialized. Restaurants and stores are closing as fast as they open which means we have too many of the same fast food type restaurants and retail stores which our community cannot support. It is ridiculous to continue to allow continued new development just because there is a square of real estate that hasn't been built on yet.

Name: Luis Perez

Date: 4/9/2019 12:47:34 AM

Address: 180 Burnsed Place

Neighborhood, Street, or HOA: Canterbury Cover, Oviedo FL 32765

How this impacts me:

The planned development will directly affect my family through loss of privacy, increased noise and light pollution, potential odors and unwanted pests from the planned north side dumpsters, increased overcrowding of our schools, increased traffic coming in and out of the neighborhood as we only have one entrance with no traffic light, and my two school aged children will be placed in increased jeopardy as their school bus stop will now be in the center of a high traffic hub. Also, I am apposed to the cutting down of the treeline on the North and East side as this will leave us with no buffer zone between us and the new development. It is absolutely imperative that we be allowed to keep an undisturbed 25 feet buffer which is already in place in the form of our existing tree line in addition to a physical barrier such as a fence or wall.

Neighborhood, Street, or HOA: Canterbury Cove

How this impacts me:

I reside near the proposed development. My children attend schools in Seminole County. I'm concerned about the increase in traffic, and the additional demands on the county school system. I'm concerned about the loss of some of the retention area for the neighborhood. I'm also concerned about the potential parking problems for that many units in that small acreage. I am proud of the county's slogan. I would like to keep us Florida's Natural Choice. Otherwise we may as well rejoin Orange County, there will be little distinction left.

Date: 4/9/2019 7:36:52 PM

Address: 1002 Kelly Creek Circle, Oviedo, FL 32765

Neighborhood, Street, or HOA: Sentry Management HOA

How this impacts me:

The development in Oviedo is out of control. I am aware of the laws regarding the impeding and prohibition of development, however, there are zoning regulations that must be protected by our elected officials. I am a resident of Oviedo since 1989 when there was less than 10K residents. This is why we moved here and now government officials are not fighting for us and allowing developers not from this area to make a ton of money on low income housing only to leave us with the problems of traffic, no added infrastructure, overcrowded schools, ensuing crime, etc... They have zero "skin in the game" and do not care about current residents because THEY DO NOT LIVE HERE. Keep Oviedo one of the best places to live instead of another Waterford Lakes overdeveloped debacle. Officials who allow improperly managed and ballooning development should be voted out of office.

Name: Dawn R McCullough

Date: 4/14/2019 3:24:11 AM

Address: 513 Hampshire Ln

Neighborhood, Street, or HOA: Kingsbridge East

How this impacts me:

The traffic in Oviedo is already too heavy. I have lived in Oviedo since 2001, and it continues to get worse and worse. I used to be able to drive from Kingsbridge East to Broadway Gymnastics (off Alafaya near Wawa) in 7 minutes. Now, the same drive takes me 20 minutes. Changing the zoning so that multi level apartments can be built will surely increase it. Also, the schools do not have the capacity to add all the new students this would surely include. As a teacher, I already have more students than the class size amendment permits. I can tell you from experience, having smaller classes really makes a difference in my ability as a teacher to meet the needs of all my students.

I have lived in Oviedo since 1974. Stop the craziness. We don't want any more apartment buildings or hotels for that matter. Sadly, Oviedo is being ruined by people who only see dollar signs, not the history or lovely quaintness that our city once had.

How this impacts me:

We purchased our home in 2017 with understanding that Oviedo is growing which is a great thing, moving here was the perfect blend of small town with a little city feel. Traffic has already increased in the last two years I am already concerned with the amount of car accidents, deaths, and pet deaths because people fail to adhere to the speed limits.

How this impacts me:

Our schools have reached capacity, traffic is a nightmare! Our water quality is deteriorating yet building keeps happening. Seminole County needs to halt irresponsible growth and keep it "Florida's Natural Choice"! We bought our home specifically for our kids to attend certain schools as did many residents. To shuffle kids around schools to make way for people who rent, is a slap in the face for those that have been paying enormous property tax bills AND are not transient residents. Enough is enough! Overgrowth is wrong on so many levels, preserve our environment, our resources and our beautiful county!

I live in an area that the only way to get in and out is through 434. It has become increasingly difficult to turn into and out of my neighborhood. It's like playing a game of double dutch every single day. Very dangerous. We are from Miami and can see the congestion becoming quite similar, which in turn makes people frustrated then they start to drive more aggressively because they can't get anywhere. It's not a healthy atmosphere for the entire town.

We just put an offer on house two streets from this area. This will increase traffic and bring down the value of our home. Also schools don't have the space to support the increase.

How this impacts me:

Traffic is currently not safe when you have to make a u-turn to go into Canturbury subdivision. This development is going to make it worse with backed up traffic on the left lane when heading south on Alafaya Tr to turn into Burnsed Pl. A 3-story bldg is going to affect the property value of all the single family homes that are right next to the development.

How this impacts me:

I travel Alafaya Trl daily. With this proposal and another proposal nearly directly across from my neighborhood, this will cause intolerable traffic bottlenecks. Thatâ€™s not what we moved here for. We selected this location because of the low density housing and reasonable traffic. Itâ€™s only gotten worse each year.

How this impacts me:

Traffic increases are a major concern. Mitchell Hammock is not adequate for the rush hours traffic we have now. I also think the local schools will be negatively impacted with the extra students this development will add to the enrollment. Converting this property to a city park will enhance Oviedo much more than high density residential buildings and fast food restaurants.

Name: Gerette Saintilus

Date: 4/15/2019 2:40:01 AM

Address: 561 Augustine CT, Oviedo, FL 32765

Neighborhood, Street, or HOA: Waverlee Woods

How this impacts me:

The rate of growth and development I've experienced since moving to Oviedo in August of 2007, far exceeds any of the road expansions and maintenance. The commute time suggested on any maps are grossly understated. My 11 miles commute to work should not take 20 to 25 minutes on a good day. Now if UCF has a game or graduation or there's an accident, then that commute time extends up to 50-90 minutes to go the same 11 miles. So....until there are plans (and actual work) in place for road expansions to catch up with the backlogs created by past developments and BEFORE any more new developments are added to Oviedo, then I oppose any changes to our current zoning laws that will only add to our traffic problems and overcrowded schools. If we continue to allow development without taking into consideration our resources and limitation, we will turn our beautiful city into an ugly, overcrowded place and turn our kind and generous neighbors to mean individuals filled with road rage and hate.

Address: 3500 Silver Thorn CT

Neighborhood, Street, or HOA: Live Oak Reserve

How this impacts me:

Over developing has already created influx of transient individuals, created more rubbish in our neighborhoods, created huge amount of traffic (it feels like Mumbai). Oviedo has had increase % of crimes. Our schools are over their capacity, and in the long run CV they ccx will suffer by no longer being "A" graded. Oviedo would no be a desirable city to reside in, AND all of these will bring down our property market value.

Address: 177 Lake Drive Oviedo, FL 32765

Neighborhood, Street, or HOA: Lake Hayes

How this impacts me:

This issue will effect my confidence in the Seminole County officials that would rezone a fully populated residential area for the benefit of a developer while disregarding the investments and life plans of the people of This Seminole County community. The success of this plan would prove to me that the community voice has no power at the table with the county even when the investors are not in attendance. It will effect my voting choices. Just the presentation of this proposal raises my interest to discover and make public the funding and ultimate reasons for such a plan. This is obviously a beginning of a process that will cascade in favor of developers over community.
